A Heart Suture 1-6

Malettor (Gause) Cross is The Greatest Woman I have ever known. I don't Remember how we first met in the KOSMOS, but here on earth it was 9 months prior to March 1st 1968. I was the last of 11 beings to come forth from this Celestial gateway; born with a bright light like most of this cluster of stars I learned to shine at a very young age. I was the secret that all of the other stars thought that they were the only ones to whom it had been revealed. They all spent time nurturing my glow as I had a part of each of their light within me. LifeLight was The Oldest Of The Stars She Shined From A Youngling On Into The Celestial Kosmoverse. Son Of Magnificent Shined Throughout The Theology Of Time, One Honoring God Was Resplendent Throughout The Heavens While One Wondered Who Is Like God. As The Beacon Echoed The Light, The StarWalker Spoke The Tongues Of Realms, Earth Talker Whispered Across The Waters Of Nun And The Beloved Blessed The Worlds As Grace And Temperance Let Us All Know That My Help Is God and I would receive different points of their light learning the mysteries of the Kosmos over time until I was asked " would you like to have Jesus in your heart?" I paused, searching the Akashi for the light of this "Jesus" when I heard a voice in Heaven say "you will learn More" I then replied yes! We then peered into the KOSMOS and I requested the light of " Jesus" to shine bright in the realms. The year was 1974.

My heart expanded. The journey had begun.

Battling With The It Within 7-15

I began to learn of Jesus in A Mystery school in Detroit Founded by an Adept named Haman he was a Herald Of The Most High In The Realm who taught the light of Jesus's teachings and I grew to love him for his Knowledge and wisdom of the word. I was eagerly grasping this light within my bosom when a shadow was cast over the KOSMOS and I heard another voice say "to know the light embrace the darkness you must". I was intrigued. A neophyte I was, venturing off into a dark realm with only the candle glow of Jesus to guide me. I learned of lusts of the flesh, lust of the eye, the pride of life, idolatries, and the many dark forces of this realm. I soon embraced my dark side and the light of the KOSMOS dimmed; Thus began my battle with the it within,". The battle had both its pleasures and abominations all necessary ,I would later learn, to navigate the KOSMOS and shine bright again. Through the darkness I learned of the light of inner standing where seeds die ,get buried deep within the soils of Knowledge And grow into the gratitude of a greater light than even the lights of understanding. This is where I learned the light of the Arts to battle the perpetual Commotion Of The it ; I came into the Awareness from a sip of Bitches Brew, Round About Midnight, with Mr. Magic and A Love Supreme (the KA Nun Of The Church Of Saint John)..The battle raged on with some stars being cast down when I heard a voice within the darkness say " if stars fall place them back in the sky"

the year was 1983

Mind Over Matters 11-16

Jesus walked with us. Though in the depths of darkness
His light shined. We learned of dimensions within
dimensions

The creative force, the songs of Sphere. We bowed
down. We asked forgiveness for our trespasses. The
Most High Blessedly Commissioned Us in The
KOSMOS. We knew The it remained but we would only
have to renew our commitment to the light to overcome
whenever the darkness fell.

The light of the KOSMOS shined bright once again. We
communed With The Most High.

I counseled with the stars to seek Out knew Knowledge,
Moor Knowledge of the realms to further battle the dark
force of The it. We learned the alchemy of the
Elementals, And The Mystics, We were empowered
with Mind Over Matters.

A new journey would begin...

the year was 1985

To Join The Republic 17-19

I sensed The it's power

It was an imbalance in The KOSMOS and it tore at my soul. Forgotten Of the outer realms I sought out Knowledge of humanity . I would be following in the Aether Wake of 3 Stars Magnificent, One Who Is Like God, and One Honoring God...they all shone Down these corridors of the republic to speak understanding. I was commissioned out of the mystery school in Detroit so I sought to justify my Knowledge, make practical my inner standing. The republic was conflicted and many didn't agree with its practices. I, as well as many stars grew fond of the republic even though it had a history of oppression, for that was many years before and it seemed that the oppressed

Were gaining moor and moor rites, yet the Conflicts ensued ...I wanted to know why...

I gave an oath to defend its constitution,

I joined the republic.

When I heard a voice in the KOSMOS say:

“Expect Nothing And You Will Always Get Moor Than You Expected.”

The Year Was 1987

Chariots Of The Seas 19-21

The it laid dormant but aware.

I studied war. Weapons of Mass Destruction and aft
steered great metal chariots of the seas. I wine
bibbed to drunken stupor, I danced and laid with
fair maidens who sang sad siren songs that
tempted me to madness; I charted stars, I
questioned questions, I traveled foreign realms to
find my feet on common grounds. Overjoyed by my
knew knowledge

Those who would embrace the it were lurking
among the ranks of the republic legions. I soon
became disenchanted and a rebel to what I
learned of the republic. Hearts were hardened.
Lines crossed. My Spirit was cast down. Then I met
a man of iron who asked " have you forgotten
Jesus?" and as a child once more I searched the
Akashi and replied " Who is this Jesus?"
He took me to a Temple and showed me
The Unseen wisdom of the KOSMOS.
I was intrigued...I wanted to know more of this
"Jesus".

The Year Was 1989

Intellectuals Scientists Love Adventures Mathematics 24-31

Returning to the home realm was different this time I returned home as a query into the ways of the separatists, those who lived in the republic but were against the practices of cultivating the it that cast a shadow on the KOSMOS. Even in the city of Iron did I learn of great intellectuals but here in the Mother Town there were scientists who taught that the dissonance of the it was the imbalance in the KOSMOS, that the light of “Jesus “ was how to balance its dark power I learned the love of Ascended Beings journeyed in many adventures of truth of the KOSMIC light counseled With Haman and learned the Mathematics to build greatness in the halls of the ascendancy that would stand the test of time throughout the KOSMOS

I Became well versed in mastering the it and soon was appointed guardian at one of the schools of the KOSMOS where wise younglings learned to master the it. One of the KOSMIC Messengers Of the light taught of Jesus and how he personally battled with the it As he was taught by an Ascended Master in all the degrees of the Sphere, but the it grew darker and the republic embraced the it and once again the light of the KOSMOS grew dim. Darkness fell upon the KOSMOS.the separatists opposed the republic and the republic's wicked schemes were plotted against those who sought to balance the dissonance of the darkness of the it.Their dark Scientists divulged ways to control the minds of the adepts.I too fell victim to the darkness of the it once more .while navigating the realm I was succumbed and all but overcome by the dark forces of the republic That embraced the it. I fell into the depths of the darkness and was yet shone the unknown mysteries of The KOSMOS.I emerged after long fasts and meditation,enlightened by this trial But because of my battle and the scars I removed myself from the learning halls of the separatists, I was Leary of the darkness of the republic and its internal evil machinations within the ranks of the separatists, so I sought knew light in the KOSMOS:The Arts and sciences,Grand Verbalizing, Sound Theology And Manifestations Of Light Spectrums in Acrylic Alchemy. I grew wiser in the KOSMOS in the light of inner standing,Yet my hunger for balance and purpose grew stronger. It seemed as if Aeons had passed when a voice in the KOSMOS said:

“Time Is Irrelevant, There Is Only The Compassion Of The Random Abstract”
the year was 2001

Into The Aether Bleu 44-50

The light of the KOSMOS Shined Bright across the realms and the love of Jesus contained
the it in a dissonant abstract I

Now served the Veterans of the wars of the republic who sympathized with the separatists
against the it,sound theology And feasts Of nourishment. The KOSMIC Countenance
unfolded.I was grateful for the many blessings from the Originator,Our Love Ascended
